

What are our students saying about SoloPro Driving School?

"I've just arrived home from competing in the Canadian National Autoslalom Championships. This was my first event since taking the course back in August. I kept in mind all that I learned and applied it as best as I could over two days. The results even astounded me with a large victory in class and taking top PAX position on both days."

-Chris D.

"Great school! Great instructors! The benefits were extremely tangible at the very next event."

-Art S.

"I drove a 2,600 km round trip for the school, incurred the cost of the course, motel, food and gas. I think the school was well worth the time and money, and I would gladly do it again. I have an understanding wife :-). The school and its excellent Intro and Comp programs pushed my personal development up the curve at a MUCH faster rate than I could ever achieve on my own. I'm probably at least a year ahead of where I would have been on my own."

-Scott A.

"Great school, fantastic instructors, I will be back for more!!"

-Josh K.

"The ability of the instructors to quickly focus on the areas that I needed to improve on to "find time" was extremely impressive. It is obvious how much effort is put into the program and the event. Thank you!"

-Chad M.

"All and all the Solo Pro Driving School is the best money you can spend for your auto slalom career!"

-James M.

"Overall, a great experience especially for a complete novice such as myself. I'll make every effort to get to your course whenever you're in the area (which had better be often!)"

-Steve C.

"I was able to learn from three different instructors three different driving styles. I think you guys do a great job of tailoring your instruction to fit each individual student."

-Getchen A.

"I especially liked the elements in the courses. They were challenging and thought provoking."

-Charles K.

"Great input of the Instructors (all of them), pointing out the areas of improvement, and how to change old bad habits. Had a great time, will recommend to everybody I know. EXCELLENT!!!"

-Andres R.

"Riding with instructors was a huge help for me. Having the all the important points demonstrated to me 1st hand was huge help. I was able to place the car properly after I was shown where it should be."

-Ryan E.

"Absolutely the best \$\$ I have spent in autocrossing this year, and without a doubt one of the best autocross schools I have ever attended."

-Josh B.

"The SoloPro Comp School curriculum is clearly superior to competitive offerings. Tim and Jinx have done a great job creating a class that reinforces fundamental autocross techniques with a setting that closely matches actual autocross competition. Excellent experience, fantastic instructors!"

-Steve G.

"I went to my first Autocross after going to SoloPro and man what a difference. I went from being one of the last drivers in the pack and near the bottom on PAX to getting first place out of 13 in Novice. Also I would have placed third in the Tire class. Honestly I can't thank you guys enough. I feel that it's starting to click for me. I know I have a lot of work ahead of me to get where I want to be but I definitely made a leap by going to SoloPro."

- Matt H.

Instructors are passionate with what they are doing. Their observation skill is excellent, and the immediate technical feedback and problem solving suggestions are very easy to understand. I would like to thank (the instructors) for doing such a great job. They are all very friendly. They are very good at finding my weakness and help me to improve. I won my first overall PAX victory in a regional race the very next day! I would like to give full credit to these awesome guys.

- Philip L.

"I had a great time and learned a lot. You have a great group of instructors with a wealth of knowledge to share. They are even better because they have a passion and an excitement for improvement in the student that comes through in the instruction."

- Nikki E.

"I really can't thank everyone from SoloPro enough. I finally have the knowledge and confidence to really push myself but also to understand the track, the car, and how to put everything together consistently to drive to my fullest potential. All of the instructors made things very easy to understand and to retain. Again, I really can't thank everyone from SoloPro enough because I now feel that I have the ability to truly compete in this great sport."

- Alex P.

"Awesome school, best instructors I've ever met."

- Anthony H.

"Don and I agree that the curriculum is fabulous. The courses show a great deal of careful thought in design. The courses are easy to read and shouldn't be confusing to novices. All the instructors are flexible in working with the student at the appropriate level of the student. I think you have a great product."

- Liz L.

"As a 12-year veteran of local-level autocross, your Extreme class helped me further refine my driving skills. I have a much better feel for what the car is doing at speed and what it needs to get the most out of it. In the past, my tendency has been to over-drive the car at times. Finding a balance has been a challenge. The value of small driving inputs and how they can make a big difference to the performance of a car became very clear. The concept and application of "stick, slither & slide" helped me understand the fine differences between aggressive-driving and over-driving. I now feel in-control of the car rather than reactionary. My driving inputs are now deliberate and much more precise. Also, riding with and instruction from two different instructors was wonderful. Each (has) very different driving and instructing styles. This was very beneficial to me and encouraged me to try different driving lines in the courses."

- Tim M.

"The patients and knowledge of both instructors was wonderful. The time, money and energy that I invested into the trip and school was absolutely worth it - simply put I am a much better driver for having attended the school. I am planning on attending the Extreme Training after I have a few races under my belt. And, I would gladly drive another 11 hours to attend. I also think it was great that both (instructors) did a great job of helping me find what works best for me and they treated me and taught me as a person not as a woman, which I thought was great. I would definitely recommend this (to) any female drivers that are considering attending the school. Really, you guys were great! I really appreciate all that you taught me and I plan to make you proud by using it and kicking some autocross booty."

- Stephanie

"The instruction was geared to my needs. (The instructors) helped me pinpoint and analyze my deficiencies, and then worked to help me improve in those areas I needed help in the most. The data log was amazing, and a significant tool that helped me understand abstract concepts in concrete terms. I am an enthusiastic supporter of your school. I will recommend your school to everyone."

- Rich H.

"This school was worth more to me, by a country mile, than any other school that I've taken. Their level of involvement and commitment to each student exceeded my expectation. This was an incredibly great way to start the SOLO season."

-Don L.

"I really feel like a huge improvement was made on how I'm driving the car on entry/mid-corner that will pay huge dividends on corner exit. I thought the two-day format was great and really provided ample time to work through the things I wanted to improve. The Extreme School was fantastic. Your enthusiasm and obvious desire to see students improve/get faster is second to none. It is clear to me that you both do this out of love for the sport and that comes through in the quality of your instruction. You guys rock."

- Dave O.

"Absolutely the best school we've attended. The school was great fun, and especially helpful for two main reasons. First, I arrived with several things that I knew needed help. (The instructors) focused on these things right away and we began adjusting. As we began making corrections in one area it opened the possibility to make changes and improvements downstream. Second, being able to see the data immediately reinforces what you know, reinforces what the instructor is telling you, and is a tremendous confidence builder to see in black and white what you've done, and what you need to do to be quicker. Thanks guys, for a great 2 days!"

-Gwen B.

"The school was great, and I'll keep coming back when there is one close enough to attend."

-Bernie B.

"I got a lot out of the whole experience, but the data logging in the Extreme school was amazing. I really found a lot of bad habits I didn't see until I could look at the graphs."

-Terry P.

"I feel I got a years worth of runs in a weekend. I was able to practice new techniques and break some bad habits. Both instructors were helpful in giving advice and encouragement. Getting to see the data on the computer was also very helpful. It really showed me where I was losing time, where I needed to be smoother, and it also showed where going in too hard was actually slower. I would love to take another Extreme school right before Nationals."

-Ginette J.

I saw improvements from a 2-month driver to a national trophy winner in the same school. Very impressive! Real feedback that you can use on any level. Beat my co-driver the next day by 1.66 seconds - best I have ever done against him!!

-Tom S.

I really have no ways I think the school could be improved upon, other than having them more often in Atlanta. I really enjoyed it.

-Matt P.

The SoloPro driving school was the best school I have taken yet. Between novice schools, other autocrossing schools, driver's events at tracks, SoloPro gave me the most insight into what it takes to be a great autocrosser. I will have no qualms about signing up for more advanced courses as I know I am getting my time and money's worth through the SoloPro schools.

-Randall P.

Well worth the time and money. I saw results the next day. I won my class against more experienced competition, an achievement I don't think would have been possible without (the instructors) tutelage. Thanks!

-Brad T.

The instructors were great coaches, each with their own style. The personal instruction and extended seat time next to such talented and experienced drivers was invaluable.

-Pat Y.

The competition phase in the Comp school was absolutely fabulous!

-Murray P.

The course design was well thought out, which complimented the materials being taught. The course could easily highlight what kind of elements I need to work on to be a better driver.

-Ambrose F.

The instruction and format was excellent, I don't think it could be improved.

-Nick F.

As a rookie in the sports, I find that the instructors were able to make me at ease, taking most of my anxiety and nervousness. This greatly helped in my learning. The format was excellent, zero classroom, but rather 1 to 1 instruction in the car. Awesome!

-George C.

I feel like I got a whole season worth of experience in one day. I feel much more in control of the car. I believe my mental and technical racing skills improved tremendously.

-Filip K.
